REFLEXOLOGY 60 min £60.00

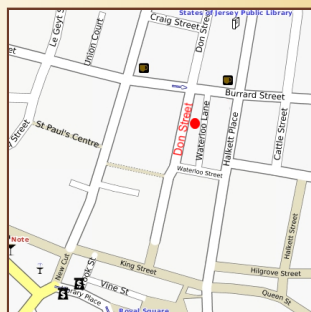

Discover the ancient art of reflexology at our beauty salon, where relaxation and wellness come together in perfect harmony. Reflexology is a holistic therapy that has been practiced for centuries, known for its incredible ability to rejuvenate the mind, body, and spirit.

Reflexology is based on the principle that specific points on the feet, correspond to various organs and systems within the body. By applying gentle pressure to these reflex points, our skilled reflexologists can help promote balance and healing throughout your entire being.

As you sink into a comfortable treatment bed and allow the stresses of the day to melt away, our expert reflexologist will begin the session by carefully assessing your individual needs. They will then use their skilled hands to target specific reflex points, working to release tension, improve circulation, and stimulate the body's natural healing processes.

The benefits of reflexology extend far beyond mere relaxation. Many clients report reduced stress, improved sleep, and enhanced overall well-being after just one session.

Reflexology can also help alleviate discomfort and promote a sense of harmony within the body, making it an excellent choice for those seeking relief from conditions such as headaches, digestive issues, and chronic pain.
